Reasons for allowance

1. This communication is in response to applicant's 08/25/2010 amendment in the application of Priborsky for the "Methods Dynamic control of physical layer quality on a serial bus" filed 07/24/2003. This application is a Request for Continued Examination (RCE) under 37 C.F.R. 1.114 filed on Sept. 24, 2009. The amendment and response has been entered and made of record. Applicant's argument and explanation with regard to the rejection under 35 USC 103 are persuasive. Claims 5-6, 12, 14-15, 20-22 have been canceled and claims 1-4, 7-11, 13, 16-19, 23-26 have been amended. The claims have been amended to better point out and more distinctly claim subject matter comprising the invention.
2. Claims 1-4, 7-11, 13, 16-19 and 23-26 are allowable as evident by Applicant's amendment (Claims are renumbered as 1-18 respectively).
3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or suggest a system comprising: comprising: a first apparatus comprising: a first line driver transmitting user data and primitives at a first end of a serial bus, the first line driver having a control input that controls a transmitted physical layer quality at the first end; a quality sensing circuit, at a second end of the serial bus, that makes a comparison of a quality standard to a received physical layer quality that includes an amplitude, and that generates control primitives representative of the comparison; and a second line driver at the second end of the serial bus transmitting the generated control primitives at the second end, and a first line receiver at the first end receiving the control primitives to provide closed loop control of

the physical layer quality; and a second apparatus, substantially the same as the first apparatus, the second apparatus controlling a second physical layer quality in a direction on the serial bus that is opposite to the direction of control of the first apparatus, to provide bi-directional physical layer quality control on the serial bus, as specifically recited in the claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
